What was Good?

- (Blake/Jacob) work was manageable with time constraint
 - o (Jacob) time estimates were correct
- (Isabel) accountability to one person is
- (Naeun) Sprint length

What was Bad?

- (James) don't plan Sprints near holiday
- (Isabel) poor work scheduling
- (Blake/James/Naeun) watcher was not present
- (Blake) short sprint

What needs to Change?

- A watcher have at least (task assigned hours) + (task assigned hour / 2) hours in availability
 - o decide between Group presentations or Watchers
- longer sprint
 - o change project plan
- better communication discuss during sprint planning when is good time to update watchers
