

Conversation with: Isabel Guzman, Blake Del Rey, Naeun Yu, Jacob Sunia, Justin Calma, Kayla Chu, Danny Bribiesca

| Type | Date | Content |
|--|----------------------------|--|
| Received Sent by: Danny Bribiesca CSULB | Apr 9, 2022 5:32:53 PM | 1. Working on tables and design for product recommendations. Needed to discuss with James and Vong in OH. 2. Not blocked 3. Continue working on tables and design. Need to speak with some other team members and email Vong regarding possible changes to feature |
| Received Sent by: Jacob Sunia CSULB | Apr 9, 2022 4:05:21 PM | 1. Yesterday set up the AWS EC2 instance and am learning how to deploy the backend 2. Blocked with usermanagement due to login not being pushed to our code base. 3. Will work on DAR NHTSA and submit tonight. Also will work on Part Price Analysis call to compare price. Also will work on Part Price Analysis subscription |
| Sent | Apr 9, 2022 9:35:28 AM | 1. Tested my SQL code, everything works except for storing an image so couldn't do a Pull Request. Pushed Excel Sheets to GitHub. I think I'm showing Isabel's Sequence Diagrams and mine, but I don't know who else's is ready. Started the EC2 Instance with Jacob. 2. (Are you blocked? Why? By who?) 2. No. 3. Show sequence diagrams to the prof for feedback. Ask for advice to store images in database. Research code deployment and do it for Logging. Unavailable after 5pm so will try to get as much done as I can. |
| Received Sent by: Kayla Chu CSULB | Apr 8, 2022 9:59:11 PM | 1. Team meeting, worked on cookies 2. Not blocked 3. Nothing had work all day |
| Received Sent by: Danny Bribiesca CSULB | Apr 8, 2022 1:34:42 PM | 1. Team meeting. Worked on tables for personal recs 2. Blocked 3. Going to office hours tomorrow to ask Vong specific questions... may need to discuss more with team as well |
| Received Sent by: Isabel Guzman CSULB | Apr 8, 2022 10:10:16 AM | 1. Team meeting 2. Not Blocked 3. Created necessary tables for CarBuilder, understood models/entities, adding to excel sheet, finish sequencing diagram, created models diagrams |
| Sent | Apr 8, 2022 10:07:34 AM | 1. Started the Subscription sequence diagram but realized that it's out of the scope of my feature I waited to talk with Danny about it first. Finish the SQL code for my database tables, they need to be reviewed now. 2. No. 3. Test my SQL code on my local then set a pull request for it. Begin coding the Models and Entities that I will be using. According to the meeting this morning, fetching User Profile data for needs to be designed, I will discuss allocation of work with other team members. Push Excel Sheets to GitHub today. Gather sequence diagrams for office hours tomorrow. |
| Received Sent by: Kayla Chu CSULB | Apr 7, 2022 8:11:06 PM | 1) working on the cookies for login 2) not blocked 3) get cookies done, fill out sprint log |
| Received Sent by: Blake Del Rey CSULB | Apr 7, 2022 8:10:49 PM | 1. Updated excel hours 2. Not blocked. 3. Nothing |

| | | |
|--|-------------------------|---|
| Received Sent by: Justin Calma CSULB | Apr 7, 2022 8:09:56 PM | 1. Updated sprint records 2. Blocked. User accounts need to be created through account registration or some other way. Need to discuss with Danny and James. 3. Team meeting (discussed critical core features and unique features intended completion date). |
| Received Sent by: Isabel Guzman CSULB | Apr 7, 2022 8:04:25 PM | 1. Meeting 2. Not blocked 3. Sequence Diagram, and team meeting check in |
| Received Sent by: Danny Bribiesca CSULB | Apr 7, 2022 8:04:23 PM | 1. Worked on tables for product recommendations 2. Blocked 3. Nothing until unblocked. Need to discuss with James and or maybe Isabelle |
| Sent | Apr 7, 2022 10:57:12 AM | 1. Updated Excel Sheets. Didn't get feedback. Didn't make progress. 2. No. 3. Subscribe success sequence diagram and attend meeting tonight. |
| Received Sent by: Naeun Yu CSULB | Apr 6, 2022 4:40:58 PM | 1. Worked on Notification System sequence diagrams 2. Not blocked 3. Continue working on the diagrams |

Received Apr 6, 1. Started on the failure cases for Event List 2. Not blocked 3. Update sprint records and continue working on failure cases for event list

| Received Sent by: Kayla Chu CSULB | Apr 6, 2022 2:10:21 PM | 1) worked on adding cookies to the login 2) not blocked 3) get the cookies to work and continue on direct message |
| Received Sent by: Danny Bribiesca CSULB | Apr 6, 2022 1:39:57 PM | 1. Worked on tables for product recommendation preferences. Made more changes to account registration and preparing files for merge. 2. Not blocked. 3. Update sprint planning for 13, 14. Continue working on code changes and product rec's tables. Review community board files. |

| | | |
|---|-------------------------|--|
| Sent | Apr 6, 2022 9:39:14 AM | 1. Finished the Upvote and Create Comment success sequence diagrams. Updated the DB Tables, Entities, and Models to correctly reflect the flow of data in the diagrams. Copied my Usage Analysis Dashboard files onto my local so I can reuse my code when I redo my implementation of the feature. 2. No. 3. I have an exam today. I'll make progress in Subscribe Account success sequence diagram. I will post my finished sequence diagrams, entities, and models to Discord so I can get feedback from Danny and whoever else can look them over. Push my finished diagrams to the GitHub once confirmed by the team. |
| Received Sent by: Justin Calma CSULB | Apr 5, 2022 8:35:44 PM | 1. Sprint planning 2. Not blocked 3. Begin working on failure sequence diagrams for Event List |
| Received Sent by: Danny Bribiesca CSULB | Apr 5, 2022 12:15:02 PM | 1. Sprint planning and code changes 2. Not blocked 3. Continue code changes, begin implementing products recommendations backend (at least planning to get tables done) |
| Received Sent by: Isabel Guzman CSULB | Apr 5, 2022 12:09:41 PM | 1. Sprint Planning 2. Not blocked 3. Sequence Diagram, and confirm w/Blake and Danny about Database |
| Received Sent by: Jacob Sunia CSULB | Apr 5, 2022 12:07:45 PM | 1. Sprint Planning and focused on adding the salt to the passwords for hashing. Also worked on hashing usernames w/o salting 2. Need backend for authenticated sessions to work so I can move onto the front end. 3. Today I will work on the API for Account deletion and focus on generating the front end but am blocked due to the backend not being complete for login |
| Sent | Apr 5, 2022 12:04:04 PM | 1. Sprint Planning 2. No. 3. Creating the upvote and comment success sequence diagrams. |
| Received Sent by: Jacob Sunia CSULB | Apr 1, 2022 11:48:43 AM | I haven't done anything either but I'll be working on things today. |
| Received Sent by: Isabel Guzman CSULB | Apr 1, 2022 10:51:38 AM | Just a heads up |
| Received Sent by: Isabel Guzman CSULB | Apr 1, 2022 10:51:35 AM | ALSO GUYS I WAS ABLE TO WORK ON THIS WHILE I WAS IN SF THIS PAST WEEK, BUT IM HOME NOW AND LEAVING TOMORROW FOR TRACK WHERE I WILL BE UNREACHABLE UNTIL MONDAY |
| Received Sent by: Isabel Guzman CSULB | Apr 1, 2022 10:50:48 AM | COMPLETELY FORGOT ABOUT SCRUM THIS WEEK 1. Worked on Code migration, almost finished with that but did not push changes so git hub is inaccurate rn 2. Not blocked 3. Make config file |

| | | |
|--|---------------------------------------|---|
| Received Sent by: Naeun Yu CSULB | Mar 26, 2022 11:47: 40 AM | 1. Nothing 2. Not blocked. 3. Work on notification system sequence diagrams |
| Received Sent by: Isabel Guzman CSULB | Mar 26, 2022 9:22:48 AM | 1. Tech Proposal was approved 2. Not blocked 3. Sequence Diagram |
| Sent | Mar 25, 2022 8:12:09 AM | 1. Edited the DB tables diagram. Created Subscription table, and needs reviewal by Naeun and Danny. Fixed the errors in my Post Feed sequence diagram and created pages for the other abilities of Community Board. I narrowed it down to the core functionalities: Post Feed, Upvote Post, Comment Post, Access Feed, Load Community Feed, Load General Feed, Load Main Feed (Danny you would be involved in this one). All covered by my activity diagram btw. 2. Not blocked. 3. Study for my interview. Begin Upvote Post sequence diagram. |

| | | |
|--|----------------------------------|--|
| Received Sent by: Blake Del Rey CSULB | Mar 24, 2022 9:46:13 PM | 1. Sprint retro 2. Not blocked. 3. Read an entire book about the Buddhist myth Siddhartha for a 1 unit class |
| Received Sent by: Kayla Chu CSULB | Mar 24, 2022 9:25:33 PM | 1) sprint retro 2) not blocked 3) work on bootstrap tech proposal |
| Received Sent by: Naeun Yu CSULB | Mar 24, 2022 7:16:39 PM | 1. Sprint retrospective and worked on notification system sequence diagrams. 2. Not blocked. 3. Worked on Affiliate Programs tech proposal. |
| Received Sent by: Danny Bribies ca CSULB | Mar 24, 2022 7:09:29 PM | 1. Class and sprint retrospective. 2. Not blocked. 3. Fix Amazon SES tech approval and continue working on code migration. |
| Received Sent by: Jacob Sunia CSULB | Mar 24, 2022 7:08:50 PM | 1. Yesterday worked on nothing 2. Not blocked 3. Today I fixed up the folder and solution file for models and integrated changes to the delete user management operations. |
| Received Sent by: Justin Calma CSULB | Mar 24, 2022 7:06:15 PM | 1. Team retrospective. Started my tech proposal for AWS RDS 2. Not blocked 3. Continue working on the tech proposal for AWS RDS (further research) |

| | | |
|---|---------------------------------------|--|
| Received Sent by: Isabel Guzman CSULB | Mar 24, 2022 7:05:10 PM | 1. Yesterday worked on TLS Tech Proposal and Sequence Diagram 2. Not blocked 3. nothing |
| Sent | Mar 24, 2022 3:06:30 PM | 1. I tried to transfer my files but realized I have more implementation to worry about so my most of my feature code might need to be scrapped. I got too caught up in thinking of ways to implement so I didn't migrate all my files. 2. Not blocked. 3. Done with tutoring now. Going to study for my interview then continue designing the Community Board success sequence diagrams. |
| Received Sent by: Justin Calma CSULB | Mar 23, 2022 3:45:53 PM | 1. Nothing. Was caught up with other things 2. Not blocked 3. Begin tech proposal for AWS RDS. |
| Received Sent by: Kayla Chu CSULB | Mar 23, 2022 2:14:22 PM | 1) finished success sequence diagram. Started on tech proposal for bootstrap. 2) not blocked 3) start on failure diagrams and finish tech proposal |
| Sent | Mar 23, 2022 12:22: 16 PM | 1. Finished my tech proposal. Ready for reviewal. 2. Not blocked. 3. Finish code migration for my features. I'll be available for any questions but will be studying for my interview. |
| Received Sent by: Danny Bribiesca CSULB | Mar 22, 2022 7:11:22 PM | 1. Team meeting. I worked on the tech proposal for Amazon SES when I got home. I came up with some questions for the professor. 2. Not blocked 3. Prepare email for professor, continue working on the tech proposal, work on code migration for registration. |
| Received Sent by: Justin Calma CSULB | Mar 22, 2022 5:14:08 PM | 1. Team meeting and started failure diagrams. 2. Not blocked 3. Begin working on tech approval for AWS RDS and continue on failure diagrams |
| Received Sent by: Naeun Yu CSULB | Mar 22, 2022 3:09:18 PM | 1. Worked on tech proposal 2. Not blocked 3. Fix tech proposal and sequence diagrams |
| Received Sent by: Isabel Guzman CSULB | Mar 22, 2022 12:27: 43 PM | 1. Worked on fixing sequence diagram, tech proposal 2. Not blocked 3. Working on Seq Diagram tech proposal, code migration |

Sent Mar 22,

2022

12:21:50
PM

1. Met with the team for progress updates. 2. Not blocked. 3. Correct sequence diagrams according to feedback. Review tech proposals.
Maybe push my sequence diagram.

| | | |
|--|--------------------------|---|
| Received Sent by: Kayla Chu CSULB | Mar 22, 2022 12:16:49 PM | 1)worked on fixing my sequence diagram 2) not blocked 3)finish my sequence diagrams |
| Received Sent by: Jacob Sunia CSULB | Mar 22, 2022 12:03:59 PM | 2. Not Blocked 3. Today I will start working on the Business Layer for user management and will attempt to finish that by tonight. Still have to include unit/integration testing so will keep everyone posted on that. |
| Received Sent by: Jacob Sunia CSULB | Mar 22, 2022 12:03:19 PM | 1. Yesterday I worked on implementation of a new account deletion entity <<model>> for the delete account operation |
| Received Sent by: Kayla Chu CSULB | Mar 21, 2022 7:50:38 PM | 3/18 Nothing Not blocked Work on sequence diagrams 3/19 Worked on creating success sequence diagram Not Blocked Continue working on sequence diagrams 3/20 Continue working on success sequence diagram Not Blocked Build the front end for Login 3/21 Front end for login is complete. Researched how to connect front end and back end Blocked. Can't figure out how to connect the two Sequence Diagrams |
| Received Sent by: Kayla Chu CSULB | Mar 21, 2022 7:24:13 PM | Kayla |
| Received Sent by: Naeun Yu CSULB | Mar 21, 2022 4:43:53 PM | 1. Nothing 2. Not blocked 3. Work on the sequence diagrams for notification system |
| Received Sent by: Isabel Guzman CSULB | Mar 21, 2022 4:09:20 PM | 1. Nothing 2. Not blocked 3. Finished Shield Tech Proposal, Finished CarBuild Seq Diagram, working on finishing TLS Tech Proposal |
| Received Sent by: Jacob Sunia CSULB | Mar 21, 2022 4:06:42 PM | 1. Worked on the Data Access for User Managemebt implementing profile secured MySQL queries and Services for UserManagement 2. Not blocked 3. Today I will finish up on all UM and profile management services to retrieve and select accounts. Will not work on any other features than what was required of team code review. |
| Received Sent by: Justin Calma CSULB | Mar 21, 2022 3:55:34 PM | 1. Success sequence diagram for Event List 2. Not blocked 3. Being failure diagrams. Determine what needs to be done for code migration during team meeting. |
| Received Sent by: Danny Bribies | Mar 21, 2022 1:32:52 PM | 1. Finished success case sequence diagram. 2. Not blocked 3. Need to finish coding for migration, DAR for email, failure case diagram |

| | | |
|--|---------------------------------------|--|
| ca CSULB | | |
| Sent | Mar 21, 2022 9:01:17 AM | 1. Finished my success sequence diagram first draft, ready for professor's feedback. Remove the Logging projects. 2. Not blocked. 3. Rename the Application Layer and separate the Usage Analysis Dashboard Web API. Don't touch the Application Layer. Meet with team to discuss changes, progress, prof's feedback, and any questions. |
| Received Sent by: Justin Calma CSULB | Mar 20, 2022 10:48: 18 AM | 1. Nothing. Wasnt available Saturday 2. Not Blocked. 3. Create success sequence diagrams for Event List |
| Received Sent by: Danny Bribies ca CSULB | Mar 20, 2022 10:34: 24 AM | 1. Continued working on diagrams, adjusting code for registration to fit into new design, looked into alternatives to Amazon SES. 2. Not blocked. Not sure how much I'll get done today but I'll try to finish failure case scenario at least. |
| Sent | Mar 20, 2022 10:23: 26 AM | 3. Also make the changes to the Code-Migration folders that the prof advised me about it (located in notes). Don't touch the Logging project and the ApplicationLayer project. |
| Received Sent by: Jacob Sunia CSULB | Mar 20, 2022 10:21: 10 AM | 1. Started on Unit testing but was not able to get much done yesterday with unfortunate events going on 2. Not blocked 3. Will finish up the unit testing for services and move sql to Data access |

| Rey CSULB | | |
| Received Sent by: Danny Bribiesca CSULB | Mar 19, 2022 10:28:08 AM | Danny 1. Continued working on sequence diagrams for recommendations and prepped for OH. 2. Not blocked 3. Office hours. Finish success case diagram. Work on code migration. Also, I need to discuss design with the team for feedback. |
| Received Sent by: Jacob Sunia CSULB | Mar 19, 2022 9:41:50 AM | 1. Yesterday worked on the User management/profile service operations with no s injections operations 2. Not blocked 3. Today I will finish up profile operations and start Unit testing those functionalities on um services and DAOs |
| Sent | Mar 19, 2022 9:29:51 AM | 1. Met with the team for progress and questions. Updated the Code_Changes branch with the feedback from the meeting. Wrote down metrics for my tech proposal, but I may need to add one more metric. DB Models are not finished but they are complete for now, I can add more when I have other unique features' DB Models for reference. Did not get to sequence diagrams. 2. Not blocked. 3. Go to office hours for questions on Code Migration, Daily Standup Texts, and handling subscriptions in RDBMS. Start on sequence diagrams. Research tech proposal for any additional metrics. |
| Received Sent by: Isabel Guzman CSULB | Mar 18, 2022 9:33:33 PM | 1. Worked on tech proposals 2. Not blocked 3. Nothing today |
| Received Sent by: Blake Del Rey CSULB | Mar 18, 2022 10:18:19 AM | 1. Yesterday I did nothing because my mythology hw took longer than expected 2. Not blocked. 3. I will not be doing anything today as I am not available |
| Sent | Mar 18, 2022 10:10:25 AM | 1. Jest tech proposal description and purpose done, found resources for measurements. Renamed namespaces and folders. Created web api projects for Login (Kayla), Usage Analysis Dashboard (James), User Management (a lot of people, this should probably be separated to their individual features). Created some DB models for Community Board. 2. Not blocked. 3. Write down metrics for Jest tech proposal. Transfer my files to the new branch as copies. (Everyone else can copy over their files too, remember to make a lot of small commits). Create Project References. Finish DB models and maybe start on sequence diagrams. Note: I have an interview on Tuesday that I will be preparing for so progress will be slow for my tasks. |
| Received Sent by: Danny Bribiesca CSULB | Mar 18, 2022 8:43:32 AM | 1. Worked on sequence diagrams but wasn't able to complete 2. Not blocked 3. Work on sequence diagrams, research SES and MailKit, and prep for OH tomorrow |
| Received Sent by: Jacob Sunia CSULB | Mar 18, 2022 8:33:46 AM | Jacob 1. Yesterday started om the NHTSA DAR and had troubles finding competitors/benchmark test. Also worked on the UM DAO with select account functionalities and used non implemented throw functions for getting specifies users. 2. Not blocked 3. Today I will implement all those functionalities that are thrown as non implemented and hope to get to services today. |
| Sent | Mar 17, 2022 10:00:44 AM | James 1. Started the Jest tech proposal, met with the team for Sprint Planning. 2. Not blocked. 3. Write down metrics for Jest. Help with migrating files to the new folder hierarchy. |
| Received Sent by: Justin | Mar 17, 2022 9:21:07 AM | Justin 1. Attended Sprint Planning and discussed the plan/goals for this Sprint. 2. Not Blocked 3. Work on code migration (Project references and individual project for each layer) |
