

Sprint Retrospective 1

Tuesday, October 5, 2021

9:22 PM

What worked?

- Good communication
- Sharing documents
- Giving feedback
- Good splitting work, teamwork
- Added daily scrum meetings

What was bad?

- Lots of time conflicts
- One person at Office Hours
- Do not try to please the professor
 - o build to the project idea
- Schedules are offset

Any changes for next sprint?

- Limit leisure talk
- Enter hours in the Daily Scrum Meeting
- Swap teammates from sub-teams
- Sharing our progress every time we meet
 - o prepare itemized list
- Be more descriptive in Daily Scrum
- Predict Story Points better based on first sprints
 - o More Sprint planning

Professor's Feedback:

- Project Backlog
 - o estimated
 - o priority for
- Backlog Grooming
 - o allows for
 - minor
 - major
 - o reduces Scrum
- Sprint Planning
 - o everyone's
 - account
 - o Work Item
- Burndown Chart
 - o track every
 - o track indiv
 - indiv
 - o in the context
 - amount
 - hour
 - **Ex. 5**
 - o How many
- Push all charts to

must clearly, explicitly, conveniently describe:

time for Work Item hours

for each Work Item

ing

Client feedback to make necessary change before Sprint

or changes don't affect Project Plan

or changes may require resubmission of Project Plan

scope Creep

should include:

s availability for the Sprint

unts for Risk in the Sprint

n and Task hours

ts:

yone in the Sprint for a deliverable

viduals progress for Tasks in the Work Item of the Sprint

vidual charts

text of Tasks, and

unt of time it takes to complete some hour(s) of productivity

s total > hours productivity

5 hrs researching, 1 hr progress

y hours spent? vs. How many hours for progress?
